ENGINEERING LINK PROJECT

Are you in Year 11 and wondering how you can use your love of Science and Maths to pursue an exciting career?
Want to meet like-minded people who share you passions?
You need to be at UNSW on April 15 & 16

Energy drives our world. Everything you do uses energy in some way and as an engineer you will be involved in managing the efficient and safe access, transport, storage and use of energy around the planet.

UNSW Engineering has some of the world’s brightest minds working on sustainable energy projects and recently smashed the world record for solar cell efficiency converting over 40% of the sunlight hitting a solar system into electricity.

Join us for two days of energy focused, hands-on engineering projects with UNSW and industry engineers.

Visit www.telg.com.au/register for more information:

Work in groups solving hands-on engineering problems

Work with real engineers

"It was a really fun and valuable program to complete. I fully recommend it to anyone who is able to participate and is even remotely interested in science or engineering."

The University of New South Wales
Anzac Road, Kensington, NSW
April 15 & 16, 2015

Lloyd’s Register Foundation
THIEss
**Medicine Talk at Gosford Hospital**

This talk will cover UMAT, entry, what it is like to study Medicine and becoming a doctor. It is not about other health professions. Professor Martin Vasey will give a presentation and students will have to opportunity to speak in small groups with a range of 4th and 5th year medical students.

It will be on Wednesday the 13th May from 1pm and will be held in the Harry Mattocks Building. The talk runs for about 1.5-2 hours. Places are very limited, so invitations are for keen Year 11 and 12 students only.

Please see Mr Russell if you are interested.

**MedEntry Training Courses**

To assist with the UMAT test preparation, MedEntry (a government accredited UMAT training organisation) offers a variety of training opportunities for a fee. For more information visit, [www.medentry.edu.au](http://www.medentry.edu.au).

**Defence Force News**

Gap Year Applications are now open. Applications are only open for a short time, and will close on 16th March 2015.

**The ADF Gap Year is a competitive process with a limited number of places available.**

The ADF Gap Year program provides an opportunity for young Australians, who have finished year 12 (or equivalent) and are aged between 17 and 24*, to experience military training and lifestyle whilst gaining new skills and pay over their Gap Year.

Gap Year opportunities are available in the Army, Air Force and Navy.

**What jobs are available?**

Navy Gap Year, Army Gap Year (Administration Clerk, Artilleryman, Driver Specialist, Rifleman, Unit Quartermaster) and Air Force Gap Year (Airbase Protection, Crew Attendant, Personnel Capability Specialist, Supply).

Jobs

1st Year Apprentice Wood Machinist

- Located in Berkeley Vale
- WHS Card Required
- Drivers Licence & Own Car Essential
- Paid to study of a Certificate III in Timber and Composites Machining

Central Coast Group Training is the Coast’s leading employer of apprentices and trainees and has been in operation for more than 30 years. Our host employer has been providing window furnishing solutions for more than 20 years, offering Australia’s most popular brand of custom made shutters and screens. Our host is also Australia’s most awarded shutter maker, with ongoing innovation and development they assure an outstanding choice and quality.

Duties within this role will include but are not limited to:

- Sorting and storing timber
- Cutting
- Machining and assembling Timber shutters
- Assist tradesmen on special projects
- Clean and Maintain factory/ equipment as required

To be successful within this role you must be able to work well within a team environment, be physically fit, and have a high attention to detail and a high level of focus.

This position is full time working 38 hours per week, Monday to Thursday 6:30am – 4:30pm. As part of this Apprenticeship, you will be paid to study a Certificate III in Timber and Composites Machining over 48 months. The course will be delivered through on the job training.

To apply for this position please visit our website at www.ccg.com.au and click on the position, followed by “Apply Now” followed by “Submit”.
